FREQUENTLY ASKED QUESTIONS

WHAT IS A FASHION PSYCHOLOGIST?

A Fashion Psychologist utilizes the Fashion Psychology Field® a newly applied academic discipline that is focused on the study and treatment of color, beauty, style, image, and shape and its affect on human behavior while addressing cultural sensitivities and cultural norms.

WHO IS THE FOUNDER OF FASHION PSYCHOLOGY FIELD® ?

Dawnn Karen is the Founder/Pioneer of the Fashion Psychology Field®. She has been declared as [The World's First Fashion Psychologist](#) by The Times and dubbed as [The Dress Doctor](#) by The New York Times after being followed by investigative journalists. Fashion Psychology Field® is also taught at the Fashion Institute of Technology, (under Color Psychology in the Social Sciences Department and Fashion Psychology under the Continuing Education Department). She is also the 1st Black Female Psychology Professor and the youngest at the acclaimed FIT.

WHO INVENTED FASHION PSYCHOLOGY?

In 2010 while attending Columbia University, Dr. Dawnn Karen invented the Fashion Psychology Field®, after realizing the American Psychological Association nor the British Psychology Society recognized it as a field. See [Ted Talk](#) and read [Dress Your Best Life](#) for full story. Similar to APA which owns all 54 divisions of the psychology discipline, Dr. Dawnn Karen solely owns the 55th division through the United States Trademark and Patent Office. She has been a victim of academic theft for several years and has appeared in the Supreme Court (United States) and the Court of Appeals (United Kingdom) testifying to this, entering both into the legal systems for justice and vindication. See [The New York Times](#) investigative article.

WHAT IS THE DIFFERENCE BETWEEN THE FASHION PSYCHOLOGY INSTITUTE'S PROGRAMS AND THE OTHER UNIVERSITY PROGRAMS?

We take pride in education disruption and upholding academic integrity. We are the first online institution dedicated to teaching the Fashion Psychology Field®. Unfortunately due to academic theft of the field by senior psychology professionals/institutions, we have had to contend with repeated plagiarism from the onset of its creation. To avoid the participation and the perpetuation of this age-old hazing practice, we suggest all prospective students to learn from the pioneer.

FREQUENTLY ASKED QUESTIONS

WHAT IS DISTANCE LEARNING?

Distance learning is synonymous with e-learning and online learning. Distance learning can be in two forms- synchronous and asynchronous. Synchronous learning occurs when students are engaging in learning at the same time (i.e. modules). Asynchronous learning occurs when information is shared outside the constraints of time and place among a network of people (i.e. Teleseminars).

The Luminary Lab program is both synchronous and asynchronous. Specialized Programs are asynchronous.

APPLICATION PROCEDURE

Due to high demand, early registration is suggested. All program applications are reviewed in the order that they are received. Applications must be completed in full to be considered for admission. Once submitted our team meets to determine your eligibility to become a student. If applying for the Luminary Lab Program applicants for FPI must wait 2-3 weeks upon receipt of Certificate Application. All other applicants for the Specialized Programs automatically are accepted and will receive correspondence to select a start-date upon receipt of application.

FEES

There are standard non-refundable application fees that must be met to receive consideration. All fees must be applied before course registration.

For Luminary Lab Program/Macro-Credential fees see below.

For Specialized Program/Micro-Credential fees scroll below their course description.

Please note payment plans are available for all programs.

US applicants can utilize the Paypal Buy Now Pay Later plan that allows payment in 4 interest-free installments. One-Time Payment must be selected to automatically display this option.

It is available to consumers upon approval for purchases of \$30 - \$1500. Pay in 4 is not currently available to residents of New Mexico, North Dakota, Missouri, South Dakota, Wisconsin, Nevada, Rhode Island, or any U.S. Territories. Loans to California residents are made or arranged pursuant to a California Finance Lenders Law License. PayPal, Inc. is a Georgia Installment Lender Licensee, NMLS #910457.

All international applicants can utilize the payment plans 3-Monthly Payments and 6-Monthly Payments.

JANE DOE AND UNIVERSITY OF ARTS LONDON

Upheaval at Fashion Institute Over Accusations of Racism

At the Fashion Institute of Technology, a show featuring "monkey ears" is among a handful of episodes that have raised racial tension.

Dawnn Karen, who is African-American and a psychology professor, said that she filed a complaint in 2018 claiming that professors who supervised her work required her to have more academic preparation than white colleagues.

Dawnn Karen, a psychology professor, said her application for tenure as a part-time faculty member was rejected by her department. Devin Yalkin for The New York Times

Dr. Dawnn Karen has recently testified to the invention of her field in the US District Court, Southern District of New York, and the United Kingdom's Court of Appeals. The London College of Fashion (LCF) and the Fashion Institute of Technology (FIT) and the fashion industry were greatly impacted by the discrimination federal court lawsuit involving Professor Dawnn Karen. The cases clarified problems with retribution, hostile work cultures, and discrimination in academic settings. Professor Dawnn Karen's battle against these injustices brought to light structural issues that the fashion industry as a whole and LCF and FIT in particular needed to solve.

These cases raised issues of justice, diversity, and inclusivity in academic contexts by drawing attention to the internal dynamics and procedures within Psychology of Fashion Program at LCF and the Social Sciences Department at FIT.

It sparked conversations about how faculty members are treated, how assessments are conducted, and how crucial it is to provide a welcoming and fair work environment for all employees.

Both cases resolution may have had an impact on LCF's and FIT's rules and practices to stop future instances of discrimination and unjust treatment. It might have resulted in a greater sensitivity and knowledge of the problems with bias and racial discrimination inside the organization.

The situation of Professor Dawnn Karen brought to light the difficulties minority professionals in the fashion industry confront, especially in positions of academic leadership where diversity may be scarce.

It brought attention to the fact that minority professionals and students need more support and representation in sectors relating to fashion. In order to address structural biases and foster a more inclusive atmosphere, the case may have spurred discussions about diversity, equity, and inclusion measures inside the fashion industry. It acted as a timely reminder of how critical it is to combat discrimination and promote an inclusive, respectful attitude throughout the fashion industry.

Overall, LCF, FIT and the fashion industry were impacted by Professor Dawnn Karen's discrimination federal court lawsuit, which sparked conversations, increased awareness, and promoted constructive improvements aimed at creating a more welcoming and equal workplace for all parties.

FREQUENTLY ASKED QUESTIONS

¿QUÉ ES UN PSICÓLOGO DE LA MODA?

Un psicólogo de la moda utiliza Fashion Psychology Field®, una disciplina académica recientemente aplicada que se enfoca en el estudio y tratamiento del color, la belleza, el estilo, la imagen y la forma y su efecto en el comportamiento humano al tiempo que aborda las sensibilidades culturales y las normas culturales.

QUIEN ES LA FUNDADORA DE FASHION PSYCHOLOGY FIELD® ?

Dawnn Karen es el Fundador / Pionero de la Fashion Psychology Field®. Ella ha sido declarada como The World's First Fashion Psychologist Por The Times y apodada como The Dress Doctor por The New York Times tras ser seguido por periodistas de investigación. Fashion Psychology Field® también se enseña en el Instituto de Tecnología de la Moda (bajo Psicología del Color en el Departamento de Ciencias Sociales y Psicología de la Moda bajo el Departamento de Educación Continua). También es la primera profesora de psicología negra y la más joven en el aclamado FIT.

¿QUIÉN INVENTÓ LA PSICOLOGÍA DE LA MODA?

En 2010, mientras asistía a la Universidad de Columbia, la Dra. Dawnn Karen inventó Fashion Psychology Field®, después de darse cuenta la Asociación Estadounidense de Psicología ni la Sociedad Británica de Psicología lo reconocieron como un campo. Vea Ted Talk y lea Dress Your Best Life para conocer la historia completa. Al igual que la APA, que posee las 54 divisiones de la disciplina de psicología, la Dra. Dawnn Karen posee únicamente la división 55 a través de la Oficina de Marcas y Patentes de los Estados Unidos. Ha sido víctima de robo académico durante varios años y ha comparecido ante la Corte Suprema (Estados Unidos) y la Corte de Apelaciones (Reino Unido) dando testimonio de ello, ingresando ambas a los sistemas jurídicos de justicia y reivindicación. Ver The New York Times artículo de investigación.

¿CUÁL ES LA DIFERENCIA ENTRE EL PROGRAMAS DEL FASHION PSYCHOLOGY INSTITUTE® Y LOS OTROS PROGRAMAS UNIVERSITARIOS?

Nos enorgullecemos de la interrupción de la educación y de mantener la integridad académica. Somos la primera institución en línea dedicada a enseñar el Fashion Psychology Field®. Desafortunadamente, debido al robo académico del campo por parte de instituciones/profesionales de psicología de alto nivel, hemos tenido que lidiar con el plagio repetido desde el inicio de su creación. Para evitar la participación y la perpetuación de esta antigua práctica de novatadas, sugerimos a todos los futuros estudiantes que aprendan del pionero.

FREQUENTLY ASKED QUESTIONS

La educación a distancia es sinónimo de e-learning y aprendizaje en línea. El aprendizaje a distancia puede ser de dos formas: sincrónico y asincrónico. El aprendizaje sincrónico ocurre cuando los estudiantes participan en el aprendizaje al mismo tiempo (es decir, módulos). El aprendizaje asincrónico ocurre cuando la información se comparte fuera de las limitaciones de tiempo y lugar entre una red de personas (es decir, teleseminarios).

Luminary Lab el programa es síncrono y asincrónico. Los programas especializados son asincrónicos.

En última instancia, ha hecho historia como pionera del Fashion Psychology Field®, como una de las profesoras más jóvenes y la primera mujer negra profesora de psicología en el Departamento de Ciencias Sociales del Fashion Institute of Technology, al fundar el primer instituto en línea Fashion Psychology Institute. . Como autora tradicionalmente firmada por Hachette Book Group y Penguin Random House, ha publicado el El primer libro de Fashion Psychology Field® Dress Your Best Life disponible en Inglés, ucraniano, checo, español y ruso.

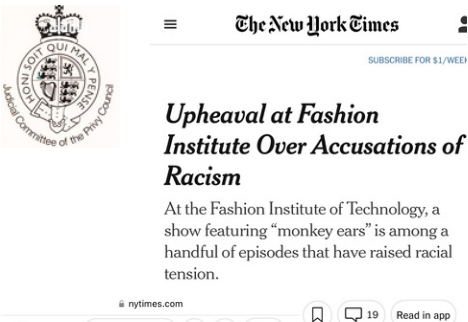

Dr. Dawnn Karen testificó recientemente sobre la invención de su campo ante el Tribunal de Distrito de los Estados Unidos, el Distrito Sur de Nueva York y el Tribunal de Apelaciones del Reino Unido. El London College of Fashion (LCF) y el Fashion Institute of Technology (FIT) y la industria de la moda se vieron muy afectados por la demanda judicial federal por discriminación que involucra a la profesora Dawnn Karen. Los casos aclararon problemas de retribución, culturas laborales hostiles y discriminación en entornos académicos. La batalla de la profesora Dawnn Karen contra estas injusticias sacó a la luz problemas estructurales que la industria de la moda en su conjunto y LCF y FIT en particular necesitaban resolver.

Expert Witness

JANE DOE AND UNIVERSITY OF ARTS LONDON

Upheaval at Fashion Institute Over Accusations of Racism

At the Fashion Institute of Technology, a show featuring "monkey ears" is among a handful of episodes that have raised racial tension.

Dawnn Karen, who is African-American and a psychology professor, said that she filed a complaint in 2018 claiming that professors who supervised her work required her to have more academic preparation than white colleagues.

Dawnn Karen, a psychology professor, said her application for tenure as a part-time faculty member was rejected by her department. Devin Yalkin for The New York Times

Estos casos plantearon cuestiones de justicia, diversidad e inclusión en contextos académicos al llamar la atención sobre las dinámicas y procedimientos internos dentro del Programa de Psicología de la Moda de LCF y el Departamento de Ciencias Sociales de FIT.

Provocó conversaciones sobre cómo se trata a los miembros del cuerpo docente, cómo se realizan las evaluaciones y lo crucial que es brindar un ambiente de trabajo acogedor y justo para todos los empleados.

La resolución de ambos casos puede haber tenido un impacto en las reglas y prácticas de LCF y FIT para detener futuros casos de discriminación y trato injusto.

Podría haber resultado en una mayor sensibilidad y conocimiento de los problemas de prejuicios y discriminación racial dentro de la organización. La situación de la profesora Dawnn Karen sacó a la luz las dificultades que enfrentan los profesionales minoritarios en la industria de la moda, especialmente en puestos de liderazgo académico donde la diversidad puede ser escasa.

Llamó la atención sobre el hecho de que los profesionales y estudiantes de minorías necesitan más apoyo y representación en los sectores relacionados con la moda.

Para abordar los sesgos estructurales y fomentar una atmósfera más inclusiva, el caso puede haber estimulado debates sobre medidas de diversidad, equidad e inclusión dentro de la industria de la moda.

Actuó como un recordatorio oportuno de lo fundamental que es combatir la discriminación y promover una actitud inclusiva y respetuosa en toda la industria de la moda.

En general, LCF, FIT y la industria de la moda se vieron afectados por la demanda judicial federal por discriminación presentada por la profesora Dawnn Karen, que generó conversaciones, aumentó la conciencia y promovió mejoras constructivas destinadas a crear un lugar de trabajo más acogedor e igualitario para todas las partes.

FREQUENTLY ASKED QUESTIONS

CHE COS'È L'A FASHION PSYCHOLOGIST?

A Fashion Psychologist utilizza il Fashion Psychology Field®, una disciplina accademica di nuova applicazione focalizzata sullo studio e il trattamento del colore, della bellezza, dello stile, dell'immagine e della forma e sul suo effetto sul comportamento umano, affrontando la sensibilità culturale e le norme culturali.

CHI È IL FONDATORE DI FASHION PSYCHOLOGY FIELD®?

Dawnn Karen è la fondatrice/pioniera del Fashion Psychology Field®. È stata dichiarata la prima psicologa della moda al mondo dal Times e soprannominata The Dress Doctor dal New York Times dopo essere stata seguita da giornalisti investigativi. Fashion Psychology Field® viene insegnato anche al Fashion Institute of Technology (sotto la sezione Psicologia del colore nel Dipartimento di Scienze Sociali e Psicologia della moda nel Dipartimento di Formazione Continua). È anche la prima professoressa di psicologia femminile nera e la più giovane dell'acclamato FIT.

CHI HA INVENTATO LA PSICOLOGIA DELLA MODA?

INel 2010, mentre frequentava la Columbia University, la Dott.ssa Dawnn Karen ha inventato il Fashion Psychology Field®, dopo aver realizzato né l'American Psychological Association né la British Psychology Society lo hanno riconosciuto come un campo. Vedi Ted Talk e leggi Dress Your Best Life per la storia completa. Similmente all'APA che possiede tutte le 54 divisioni della disciplina psicologica, la Dott.ssa Dawnn Karen possiede esclusivamente la 55a divisione attraverso la Ufficio marchi e brevetti degli Stati Uniti.

È stata vittima di furto accademico per diversi anni ed è comparsa davanti alla Corte Suprema (Stati Uniti) e alla Corte d'Appello (Regno Unito) testimoniandolo, entrando entrambe negli ordinamenti giuridici per giustizia e rivendicazione.

See [The New York Times](#) investigative article.

QUAL È LA DIFFERENZA TRA IL PROGRAMMI FASHION PSYCHOLOGY INSTITUTE® E GLI ALTRI PROGRAMMI UNIVERSITARI?

Siamo orgogliosi dell'interruzione dell'istruzione e del sostegno all'integrità accademica. Siamo la prima istituzione online dedicata all'insegnamento del Fashion Psychology Field®.

Sfortunatamente, a causa del furto accademico del campo da parte di professionisti/istituzioni di psicologia senior, abbiamo dovuto fare i conti con ripetuti plagi fin dall'inizio della sua creazione.

Per evitare la partecipazione e la perpetuazione di questa secolare pratica di nonnismo, suggeriamo a tutti i futuri studenti di imparare dal pioniere.

FREQUENTLY ASKED QUESTIONS

COS'È LA DIDATTICA A DISTANZA?

La formazione a distanza è sinonimo di e-learning e di apprendimento on-line. L'apprendimento a distanza può essere in due forme: sincrono e asincrono. L'apprendimento sincrono si verifica quando gli studenti sono impegnati nell'apprendimento contemporaneamente (ad esempio moduli). L'apprendimento asincrono si verifica quando le informazioni vengono condivise al di fuori dei vincoli di tempo e luogo tra una rete di persone (ad esempio Teleseminar).

Il programma Luminary Lab è sia sincrono che asincrono. I programmi specializzati sono asincroni.

PROCEDURA DI RICHIESTA

A causa dell'elevata domanda, si consiglia la registrazione anticipata. Tutte le domande di programma vengono esaminate nell'ordine in cui vengono ricevute. Le domande devono essere completate per intero per essere prese in considerazione per l'ammissione. Una volta inviato il modulo, il nostro team si incontra per determinare la tua idoneità a diventare uno studente. Se fanno domanda per il programma Luminary Lab, i candidati per l'FPI devono attendere 2-3 settimane dal ricevimento della richiesta di certificato. Tutti gli altri candidati ai programmi specializzati vengono automaticamente accettati e riceveranno la corrispondenza per selezionare una data di inizio al ricevimento della domanda.

COMMISSIONI

Sono previste tariffe di iscrizione standard non rimborsabili che devono essere soddisfatte per ricevere un corrispettivo. Tutte le tariffe devono essere applicate prima della registrazione al corso.

JANE DOE AND UNIVERSITY OF ARTS LONDON

Upheaval at Fashion Institute Over Accusations of Racism

At the Fashion Institute of Technology, a show featuring "monkey ears" is among a handful of episodes that have raised racial tension.

Dawnn Karen, who is African-American and a psychology professor, said that she filed a complaint in 2018 claiming that professors who supervised her work required her to have more academic preparation than white colleagues.

Dawnn Karen, a psychology professor, said her application for tenure as a part-time faculty member was rejected by her department. Devin Yalkin for The New York Times

Dr. Dawnn Karen ha recentemente testimoniato dell'invenzione del suo campo presso la Corte distrettuale degli Stati Uniti, il Distretto meridionale di New York e la Corte d'Appello del Regno Unito. Il London College of Fashion (LCF), il Fashion Institute of Technology (FIT) e l'industria della moda sono stati fortemente colpiti dalla causa contro la discriminazione del tribunale federale che ha coinvolto la professoressa Dawnn Karen. I casi hanno chiarito i problemi relativi alla retribuzione, alle culture del lavoro ostili e alla discriminazione negli ambienti accademici. La battaglia della professoressa Dawnn Karen contro queste ingiustizie ha portato alla luce problemi strutturali che l'industria della moda nel suo insieme e LCF e FIT in particolare dovevano risolvere.

Questi casi hanno sollevato questioni di giustizia, diversità e inclusività nei contesti accademici attirando l'attenzione sulle dinamiche e sulle procedure interne all'interno del programma di psicologia della moda presso LCF e del dipartimento di scienze sociali del FIT.

Ha dato il via a conversazioni su come vengono trattati i membri della facoltà, su come vengono condotte le valutazioni e su quanto sia fondamentale fornire un ambiente di lavoro accogliente ed equo per tutti i dipendenti. La risoluzione di entrambi i casi potrebbe aver avuto un impatto sulle regole e sulle pratiche di LCF e FIT per fermare futuri casi di discriminazione e trattamento ingiusto.

Ciò avrebbe potuto comportare una maggiore sensibilità e conoscenza dei problemi legati ai pregiudizi e alla discriminazione razziale all'interno dell'organizzazione.

La situazione della professoressa Dawnn Karen ha messo in luce le difficoltà che devono affrontare i professionisti appartenenti a minoranze nel settore della moda, soprattutto in posizioni di leadership accademica dove la diversità può essere scarsa. Ha attirato l'attenzione sul fatto che i professionisti e gli studenti delle minoranze necessitano di maggiore sostegno e rappresentanza nei settori legati alla moda.

Per affrontare i pregiudizi strutturali e promuovere un'atmosfera più inclusiva, il caso potrebbe aver stimolato discussioni sulle misure di diversità, equità e inclusione all'interno dell'industria della moda.

Ha funzionato come un tempestivo promemoria di quanto sia fondamentale combattere la discriminazione e promuovere un atteggiamento inclusivo e rispettoso in tutto il settore della moda.

Nel complesso, LCF, FIT e l'industria della moda sono stati colpiti dalla causa per discriminazione della professoressa Dawnn Karen presso il tribunale federale, che ha innescato conversazioni, aumentato la consapevolezza e promosso miglioramenti costruttivi volti a creare un luogo di lavoro più accogliente ed equo per tutte le parti.
